ANNUAL RATE/YEAR:

Upon request of the consumer and for his convenience, the Utility will render one bill annually payable in advance. The annual charges will be estimated by the Utility based on billing period minimum rate charges, established contracts, or on prior years' usage. If prior years' usage is utilized, the average annual prior years' usage shall be divided by 12 and allocated to each future billing period.

For the first 11 billing periods, a system charge of \$21.75 per billing period per service plus the above kWh rate blocks shall be applied to each service and its associated estimated kWh usage. The calculated bill will be subtracted from the consumer's prepaid balance. The twelfth billing period shall be an adjusted bill consisting of the \$21.75 system charge plus the kWh charge adjustment to the consumer's actual annual usage.

MINIMUM CHARGES: (Continued)

- (3) All consumers requiring more than 10 kVA transformer capacity shall be charged an additional \$1.55 per kVA of transformer capacity in excess of 10 kVA for which power usage will be allowed at the foregoing rates. This charge shall be in addition to the system charge of \$21.75 (no kWh allowance in system charge). X
- (4) Minimum charges established by special contract between the consumer and the Utility.

Any energy allowances shall be made only during the billing period in which they occurred.

DEBT COST ADJUSTMENT:

Billing under this schedule may be increased or decreased by an amount in the cost of debt capital incurred pursuant to securities, the issuance of which has been approved by the New Mexico Public Regulation Commission, of the debt cost utilized to establish these rates. This is in accordance with New Mexico Public Regulation Commission Code of Rules and Regulations No. 540.
