

NAVOPACHE ELECTRIC COOPERATIVE, INC.
ORIGINAL RATE NO. 9

QUALIFYING FACILITY BACK-UP POWER SERVICE

x

Page 1 of 3

APPLICABILITY:

This rate is applicable to all Qualifying Facilities or third party customers of Qualifying Facilities to the extent compelled by General Order No. 37 of the New Mexico Public Service Commission which are located in the service territory of this Cooperative. A Qualifying Facility is a co-generation or small power production facility that meets the definitions, standards and requirements of General Order No. 37.

TERMS AND CONDITIONS:

Qualifying Facilities and third party customers of Qualifying Facilities shall be charged for Back-up Power for forced outages of the generation of the Qualifying Facility under the same retail rate schedule which would be applicable absent the generation of the Qualifying Facility. However, Qualifying Facilities shall not be charged demand charges for Back-up Power which might be otherwise applicable under such retail rate schedules in time periods when demand charges are not applicable to such retail rate schedules. Further, Qualifying Facilities shall not, for Back-up Power, be charged for any demand ratchets or power factor penalties which might otherwise be applicable under such retail rate schedules.

RESERVATION FEE:

In the months or equivalent billing periods that Back-up Power is not utilized by a Qualifying Facility, or by a third party customer of a Qualifying Facility, the Back-up Power rate shall include a reservation fee equal to 10% of the monthly or equivalent billing period demand charge contained in the retail rate schedule applicable as established under the TERMS AND CONDITIONS section of this rate schedule. This reservation fee shall not be charged while a Qualifying Facility or a third party customer of a Qualifying Facility is taking Back-up Power.

FACILITIES FEE:

A Facilities Fee shall be charged for equipment dedicated to a customer being rendered service under this rate schedule pursuant to the applicable rate schedules and rules which govern the recovery of such costs. The computation of the Facilities Fee shall take into account the costs of facilities already paid for by such customer before installing qualifying facilities.

SPECIAL CONDITIONS:

This rate schedule adopts by reference all schedules that now are or may in the future be applicable to any service rendered hereunder. Included in this adoption are all rates, terms, conditions, rules and forms that apply to such rate schedules including, but not limited to fuel and purchased power charges (under General Order No. 28), taxes, tax adjustment charges, line extension charges, deposits, meter charges, disconnection charges, reconnection charges and all other such charges that are allowable under General Order No. 37.
