Energy Efficiency Report

Good!

Your neighbors: 150 homes in your area with approx 1600 s.f. & built approx 1985

Efficient neighbors (15th percentile) 522 kWh

You 675 kWh

Average use of all neighbors (50th percentile) 805 kWh

You are spending \$415 a year more than your efficient neighbors

Tips

Save up to \$100/yr. Say no to a 2nd fridge. A 2nd fridge in the basement or garage is a big energy drain.

Save up to \$90/yr. Seal leaky ducts! Ducts can lose 20% of cooled and heated air before reaching vents.

Visit www.rcec.coop/conservation for more ways to improve
