

SIERRA ELECTRIC COOPERATIVE, INC.

ORIGINAL RULES AND REGULATIONS NO. 14
CANCELLING ORIGINAL SHEET NO. 24

SHORTAGE OF SUPPLY

Page 1 of 1

- A. The Cooperative will use reasonable diligence in furnishing a regular and uninterrupted supply of energy, but the Cooperative shall not be liable for damages in case such supply should be interrupted or fail by reason of an act of God, the public enemy, accidents, strikes, legal process, breakdowns or damage to the machinery or distribution lines of the Cooperative, not due to the negligence of the Cooperative or its agents or employees, or any other cause beyond the control of the Cooperative. Furthermore, the Cooperative shall not be liable for damages occasioned by interruption of or reduction in service when such interruptions or reductions are necessary to make repairs or changes in the Cooperative's generation, transmission or distribution facilities.
- B. The Cooperative further reserves the right to limit new or additional power service commensurate with the available unreserved capacity in production, transmission, distribution and substation facilities. In all cases where such existing facilities are limited, the Cooperative may require a written contract for a suitable initial contract period, adequate to warrant the investment and reservation of capacity required to render such power service.
