

SOCORRO ELECTRIC COOPERATIVE, INC.
Original Rate No. 14

STAND-BY SERVICE FOR SELF-GENERATORS
(Schedule "SBS")

Page 1 of 6

AVAILABILITY:

Available to all consumers who have their own generation and use the Utility's standard service for purposes of providing Stand-by Service for general power, lighting and/or water and sewage pumping service and require more than 1000 kW/per month of Stand-by Service.

CHARACTER OF SERVICE:

The type of service available under this schedule will be determined by the Utility and will normally be at standard commercial voltages supplied at a single service location.

DETERMINATION OF BILLING DEMAND AND CONSUMPTION:

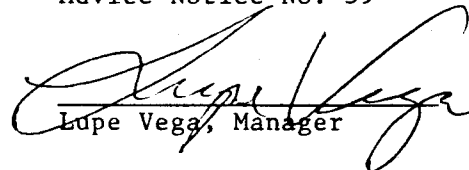

The monthly maximum kW billing demand shall normally be determined by measurement and shall be the highest 15-minute integrated or thermal kW demand.

The monthly on-peak kW billing demand shall normally be determined by measurement and shall be the highest 15-minute integrated or thermal kW demand between the hours of 6:00 AM and 9:00 PM MST.

Metering shall normally be at the delivery voltage.

Where highly fluctuating or intermittent loads which are impractical to measure properly (such as welding machines,

service, including operation and maintenance of facilities, consumer accounting expenses, and other administrative costs.

METERING:

The Utility may install suitable demand and power factor measuring devices for billing under this schedule.

POWER FACTOR ADJUSTMENT:

The consumer agrees to maintain unity power factor as nearly as practicable. Demand charges will be adjusted to correct for average power factors lower than 95%. Such adjustments will be made by increasing the measured demand 1% for each 1% by which the average power factor is less than 95% lagging.

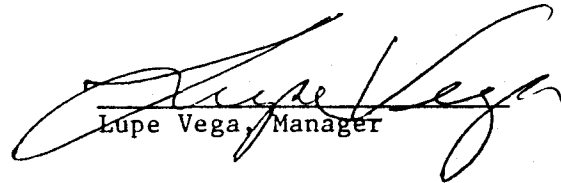

PURCHASED POWER COST ADJUSTMENT:

The Utility shall, if the purchased power expense is increased or decreased above or below the base purchased power cost of \$20.00/kW and .02689 mills /kWh sold, flow through to the users such increases or decreases, in accordance with N.M.P.S.C. Rule 550.

TAX ADJUSTMENT:

Billing under this schedule may be increased by an amount equal to the sum of the taxes payable under the Gross Receipts and Compensating Tax Act and of all other taxes, fees, or charges

(excluding of Ad Valorem, State and Federal Income Taxes) payable by the Utility and levied or assessed by any governmental authority on the public utility service rendered, or on the right or privilege of rendering the service, or on any object or event incidental to the retention of the service.

DETERMINATION OF BILLING KWH:

The billing kWh shall be determined by measurement and shall be the monthly kWh consumed.

TERMS OF PAYMENT:

All bills are net and payable within 20 days from the date of bill.

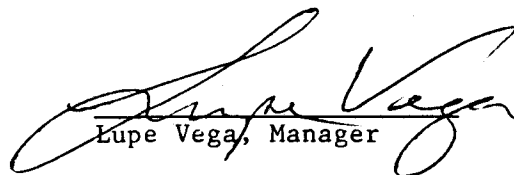

BILLING PERIOD:

The billing period shall be approximately 1/12 of a year but not necessarily a calendar month.

TEMPORARY OR UNUSUAL SERVICE:

Temporary or unusual service will be covered by the Utility's rules and regulations. In such cases, the minimum charges, conditions of furnishing substation equipment, connection and disconnection of service, and special conditions will be covered by special agreement with the customer. The customer shall pay

for all expenses involved in furnishing the temporary service.

CONDITIONS OF SERVICE:

- (1) The Utility's rules and regulations, filed with the regulatory body shall apply.
- (2) All wiring, pole lines, and other electrical equipment electrically on the load side of the metering point shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.
- (3) The consumer's installation shall conform to City, State and National Electrical Codes and Electrical Safety Codes.
- (4) The consumer shall not resell or share electric service with others.
- (5) Service will be rendered under this schedule for an initial contract period of not less than 12 months.
- (6) Special conditions of service shall be covered by contract.

TEMPORARY SURCHARGE:

Upon approval of this tariff by the New Mexico Public Service
