RULES GOVERNING TARIFF

Rule 4	Nothing in this tariff shall require or obligate the carrier to make any pick up or delivery at locations where, in the opinion of the carrier, it is unsafe, impractical, or contrary to law to operate or park any vehicle, whether because of road conditions, labor difficulties, inaccessibility of the customer's premises, or other reason. Carrier reserves the right to terminate service for any customer on these grounds.
Rule 5	By using the carrier's services, the customer agrees not to pack in any container any materials prohibited in the contract between the parties, as well as any hazardous, explosive or flammable item defined by regulations of the U.S. Department of Transportation or the State of New Mexico; heirlooms; jewelry; or other valuables.
Rule 6	Claims for lost or damaged goods must be submitted by the customer to the carrier within seven days after the loss or damage is discovered.

CERTIFICATE TARIFF NO. 1

RULES GOVERNING TARIFF

Rule 9

A customer can obtain an estimate for the size container needed, based upon a telephone call to 1-800-Pack-Rat's toll free telephone number. The estimate is based upon the customer's description of the size of the space to be moved and the amount of goods within the space. If requested by the customer, an original written estimate, based upon the information provided, will be provided to the customer, and a copy of the estimate will be maintained by the carrier. A written estimate to transport household goods, if requested by the customer, must be based upon the carrier's tariff filed with the NM PRC. The final charge for transporting the goods may not exceed the written estimate unless the customer requests services that are not included in the written estimate and agrees to pay for the additional services so requested; however, the carrier is not responsible for additional charges that may be incurred as a result of the customer needing additional containers, since the customer is responsible for all packing and unpacking of the container, and the manner in which they pack the container impacts how many containers they may need for any given move. If the final charge is less than the written estimate, the carrier shall only collect the actual charge for the service. The prices for the carrier's moves are not based upon the amount of goods or an hourly basis, as the customer is responsible for all packing and unpacking of the container.
