SECTION 5 - INSTITUTIONAL CALLING SERVICES

5.1 Institutional Collect Operator Service

5.1.1 Description

The Company provides Institutional Automated Collect Operator Service to inmates of confinement facilities. Service may be limited by the administrators of the institutions as to availability, call duration or calling scope. Calls are billed to the Called Party. The Called Party must actively accept charges for the call. A per-call service charge applies to each call.

Institutional Collect Operator Service allows inmates to make collect calls to terminating locations anywhere within in the state. An automated system prompts the caller and the called party through user - friendly instructions. The called party must accept responsibility for payment of the charges by dialing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated.

Use of the collect calling service is subject to the rules and regulations of the Commission and the institution's administrative restrictions.

5.2 Institutional Prepaid Collect Service

5.2.1 Description

Institutional Prepaid Collect Service provides an alternative payment arrangement for inmates in Confinement Institutions. This service enables end users to receive calls originating from confined persons and who cannot or who do not wish to have such calls billed through their own local exchange service provider.

With Institutional Prepaid Collect Service, a prepaid account is set up by the Company for the Customer who receives collect calls from an inmate in a confinement facility. Once an account is established, all collect calls from the confinement facility to the telephone number associated with the prepaid collect account are automatically processed as prepaid collect. If the payment into the account is provided via the Customer's credit card, credit verification procedures are carried out under the terms specified in Section 2. The Company does not engage in direct monetary transactions with the inmate.

Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses. All calls must be charged against an Account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the Account is insufficient to continue the call. Customers are responsible for contacting the Company's Customer Service Department to obtain the Available Usage Balance remaining in the Prepaid Collect Account.

Payment for Institutional Prepaid Calling Services and any Available Usage in the Prepaid Account is refundable upon request by the called party. The Available Usage Balance expires three months from the date the last call is made on the Prepaid account. No refunds of unused balances will be issued after the expiration date.

Institutional Prepaid Collect Service is available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day and usage restrictions imposed by individual Confinement Institutions. No minimum service period applies.

Network usage for Institutional Prepaid Calls is deducted from the Available Usage Balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis. Prepaid accounts may be replenished; the minimum initial deposit or replenishment amount is \$25.00; the maximum replenishment permitted is \$1000.

5.3 Institutional Prepaid Debit Service

5.3.1 Description

Institutional prepaid debit service allows an inmate to purchase a card or deposit funds into an account. Debit cards or Debit accounts may be funded in any amount subject to the requirements or restrictions of the Confinement Institution. To place a call, the inmate enters a specified Personal Identification Number (PIN) and dials the desired telephone number.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account following completion of the call and after it is rated.

Refunds of remaining balances in a Debit Card or Debit Account are refundable by the commissary upon request, typically after release of the inmate from the Institution. The Available Usage Balance expires three months from the date the last call is made on the account or card. No refunds of unused balances will be issued after the expiration date.
