TARIFF FORMAT

- A. Page Numbering: Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 4 and 5 would be 4.1.
- B. Page Revision Numbers: Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file. For example, the 4th revised Page 4 cancels the 3rd revised Page 4.
- C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i).(1)
- D. When a tariff filing is made, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

SECTION 2 - RULES AND REGULATIONS

2.1 Undertaking of the Company

The Company furnishes telecommunications services originating and terminating within the State. The Company installs, operates and maintains communication services according to the terms and conditions of this tariff. The Company may act as the customer's or subscriber's agent for ordering access connection facilities provided by other carriers or entities when authorized by the customer, to allow connection of a customer's or subscriber's location to the Company's network. The customer shall be responsible for all charges due for such service arrangements. Operator Services are provided through the terminal equipment of subscribers serving inmates in correctional facilities. The Company's services and facilities are available twenty-four (24) hours per day, seven (7) days per week.

2.2 Limitations

- 2.2.1 Service is offered subject to the availability of necessary facilities and equipment and subject to the provisions of this tariff.
- 2.2.2 The Company reserves the right to discontinue or limit service when required by conditions beyond its control, or when the customer, subscriber or end user uses service in violation of this tariff or in violation of law.
- 2.2.3 The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.2 Limitations (Continued)**

- 2.2.4 The Company directly or indirectly controls all facilities provided under this tariff and neither the customer nor subscriber may transfer or assign the use of service or facilities without the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.
- 2.2.5 Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service.
- 2.2.6 The Company does not process local emergency calls ("911" or "0-") calls. Such calls are routed directly to the serving local exchange carrier, except for operator services to correctional facilities. In the event that the Company processes an emergency call for any reason, no charges will apply if placed to a recognized, authorized civil authority.
- 2.2.7 Subject to applicable laws, the Company's services provided to inmates at correctional facilities may have special limitations. A correctional facility or state regulation may require restrictions including, but not limited to, collect-only calling, special payment arrangements, restricted calling privileges, call or number blocking, call duration limits, restriction of 3-way calling by the called party, and restricted access to alternate carriers.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.3 Use**

2.4 Liability of the Company

- 2.4.1 Except as specified in this tariff, the Company shall have no liability for damages of any kind arising out of or related to services, events, acts, rights, or privileges related to this tariff. - 2.4.2 In no event will the Company be responsible for any indirect, consequential, incidental, or special damages.
- 2.4.3 The Company's liability for damages arising out of mistakes, interruptions, omissions, delays, errors, or defects in transmission occurring in the course of furnishing service or facilities shall not exceed an amount equal to the proportionate charge to the customer for the period during which the faults in transmission occur.
- 2.4.4 The Company shall not be liable for any mistakes, interruptions, omissions, delays, errors, or defects in any service, facility or transmission caused by any person or entity other than the Company.
- 2.4.5 The Company shall not be liable for any act or omission of any other carrier furnishing any part of the service provided under this tariff.

 - C. All other claims arising out of any act or omission of the customer or subscriber in connection with any service provided by the Company.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.4 Liability of the Company (Continued)**

- 2.4.10 The customer or subscriber shall indemnify and hold the Company harmless from all losses, claims, demands, suits and other actions, and any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or persons, for any personal injury or death of any person, and for any loss, damage, or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of the Company's equipment or facilities.
- 2.4.11 EXCEPT AS SPECIFIED IN THIS TARIFF, THE COMPANY MAKES NO WARRANTY, WHETHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

2.5 Deposits and Credit Limits

- 2.5.1 The Company may require any applicant that has not established satisfactory credit to submit a deposit. The Company may require an existing customer to submit a deposit or to increase an existing deposit. The existence of a deposit in no way relieves the customer of the obligation to promptly pay bills.
- 2.5.2 The Company reserves the right to establish credit limits for services to any billing telephone number. The Company may also offer pre-set credit limits to customers who wish to control call charges billed to their telephone numbers. Limits will be set according to the Company's current guidelines and may be increased or decreased at the Company's discretion.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.6 Taxes, Charges, and Assessments**

The Company may pass through to the customer, any federal, state, or local tax, charge, or assessment. The Company may allocate taxes, charges, and/or assessments on a prorated basis among customers within a taxing jurisdiction.

2.7 Installation

Service is installed upon mutual agreement between the subscriber or customer and the Company. A service agreement does not alter the rates specified in this tariff.

2.8 Payment for Service

- 2.8.1 The customer is responsible for payment of all charges for services furnished by the Company to the customer or to an authorized user. The Company will arrange to bill calls in accordance with the collect call instructions of the caller, via the applicable telephone company or billing clearinghouse with whom the Company has a billing agreement. All charges due from the customer are payable to the Company or to any agency duly authorized to receive such payments.
- 2.8.2 The customer shall be responsible for payment of all calls or services accepted at the customer's number (e.g., collect calls).

SECTION 2 - RULES AND REGULATIONS (Continued)**2.8 Payment for Service (Continued)**

- 2.8.3 The customer must promptly report any objections to charges billed to the Company or the Company's billing agent. The Company will adjust a customer's bill to the extent that circumstances reasonably indicate that such changes are appropriate. The customer must present any disputed amounts or claims within thirty (30) days from the date of the invoice. The customer may not withhold undisputed amounts.
- 2.8.4 Bills are due and payable upon receipt. Interest at the lesser of one and one-half percent (1.5%) per month, or the highest rate allowed by law per month may accrue on any unpaid amount starting 30 days after the invoice date.
- 2.8.5 An account becomes past due if the customer fails to pay within fifteen (15) days after the invoice date.
- 2.8.6 A past due account may subject the customer's service to suspension or termination.
- 2.8.7 Failure to receive a bill will not exempt a customer from prompt payment of any sums due.
- 2.8.8 The Company may assess a returned check charge of up to \$25.00 for dishonored checks.

2.9 Cancellation of Service

The subscriber may cancel service by providing thirty (30) days written notice to the Company.

- A. Failure to timely pay any charges applicable under this tariff.
- B. Violation of any provision of this tariff.
- C. Violation of any law, rule, regulation or policy of a government authority having jurisdiction over the service.
- D. Without notice for an order or decision of a court, regulatory agency, or other government authority prohibiting the Company from providing service.
- E. Without notice for improper use of the Company's services, or use that unreasonably interferes with Company's equipment or service to other customers.
- F. Without notice for dangerous conditions that may cause harm to persons or damage to property.
- G. Illegal use, unauthorized use, fraudulent use or theft of service. If the Company discontinues service because of such use, the Company may require the subscriber to make, at the subscriber's expense, any changes in equipment or facilities necessary to eliminate such unauthorized use. The Company may also require the subscriber to pay the estimated revenue lost from such unauthorized use.
- H. Failure to provide reasonable access to the Company or its agents for inspection and maintenance of equipment owned by the Company or its agents.
- I. Use of the Company's service for any purpose other than that described in the application.
- J. Without notice in the event of tampering with equipment or services owned or managed by the Company or its agents.
- K. Inactivity for over sixty (60) days.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.11 Restoration of Service**

The subscriber or customer may be required to re-apply for service and/or pay any outstanding charges before the Company restores service for a subscriber or customer disconnected under the "Termination or Suspension of Service" section.

2.12 Refusal of Service and Blocking

The Company may refuse to process a call for the following reasons:

- A. The party to be billed does not accept the charges for a collect call.
- B. To prevent fraudulent or other unlawful use of its services.

The Company may block traffic to and from certain countries, cities, NXX's, or block calls that use certain authorization codes when the Company deems it necessary to prevent fraud or other unlawful use of its services.

Without notice and whenever necessary, at the request of an administrator of a correctional facility or any law enforcement agency, the Company may block service from or to a particular telephone number.

SECTION 2 - RULES AND REGULATIONS(Continued)**2.13 Interruption of Service**

The Company will credit a customer account for service interruptions that are not due to the Company's testing or adjusting, the customer's or subscriber's negligence or willful acts, or to the failure of customer or subscriber-provided facilities or equipment. The customer shall promptly notify the Company of the interruption of service for which the customer requests a credit. Before requesting a credit, the customer shall verify that the trouble could not have been prevented by the customer and is not in the customer's wiring or equipment. An interruption caused by automatic dialing equipment does not constitute an interruption of service for the purposes of this section.

2.14 Inspection, Testing, Maintenance and Repair

Upon reasonable notice, the customer/subscriber shall provide access to the customer's/subscriber's premises for inspection, testing, maintenance, or repair of Company provided equipment or facilities. Without incurring liability, the Company may interrupt service at any time for inspection, testing, maintenance, or repair. When possible, the Company will notify customers/subscribers of the cause and expected duration of the interruption at least twenty-four (24) hours in advance. The Company will not grant any allowances for interruptions for inspection, testing, maintenance, or repair, unless the interruption lasts at least twenty-four (24) consecutive hours.

SECTION 2 - RULES AND REGULATIONS (Continued)

2.15 Left Blank

SECTION 2 - RULES AND REGULATIONS (Continued)**2.16 Responsibilities of Customers and Subscribers**

- 2.16.1 The customer or subscriber is responsible for taking all necessary actions, for interconnecting the customer- or subscriber-provided equipment or systems with the Company's facilities or services. The customer or subscriber shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection.
- 2.16.2 The customer or subscriber shall ensure that the equipment and/or system properly interfaces with the Company's facilities or services; that the signals emitted into the network are of the proper mode, bandwidth, power and signal level for the intended use of the customer and in compliance with the criteria set forth in this tariff, and that the signals do not damage equipment, injure personnel, or degrade service to other customers. If the FCC or other appropriate certifying body certifies equipment as being acceptable for direct connection with telecommunications service, the Company may allow connection of such equipment to its services without the use of protective interface devices.
- 2.16.3 If the customer or subscriber fails to maintain the equipment and/or system properly, resulting in potential harm to the Company's equipment, personnel, or quality of service to other customers, the Company may take any immediate action necessary to protect its facilities, personnel, and quality of service. The Company will promptly notify the customer or subscriber of the need for protective action (this may include requiring the use of protective equipment at the customer's subscriber's expense). If this fails to produce satisfactory quality and safety, the Company may, upon written notice, take any additional action necessary to protect its facilities and personnel, including termination of the customer's or subscriber's service.
- 2.16.4 The customer or subscriber shall be responsible for securing its telephone equipment against fraudulent use of the Company's service. The customer shall be responsible for payment of all applicable charges for services provided by the Company and billed to the customer's accounts, even if those calls originated by fraudulent means from the customer's or subscriber's premises or remote locations. In addition, the customer shall be responsible for all calls charged by fraudulent means to the customer's account.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.16 Responsibilities of Customers and Subscribers (Continued)**

2.16.5 The customer shall indemnify and hold the Company harmless against claims of libel, slander, and infringement of copyrights, trademarks, trade names, and service marks, arising from any transmission over the facility; against all claims for infringement of patents arising from the combination or use of the Company's service with the customer's equipment or system; and against all other claims arising out of any act or omission of the customer in connection with the Company's service.

2.16.6 The customer or subscriber shall be liable for:

- A. Loss or damage of Company equipment or facilities at the customer's or subscriber's premises due to theft, fire, flood, or any other casualty or criminal act.
- B. Reimbursing the Company for damages to facilities and equipment caused by the negligent or willful acts of the subscriber or customer or its authorized users, employees, agents, or contractors.
- C. Charges incurred with other companies for service at the customer's or subscriber's premises or on the customer's or subscriber's equipment.
- D. Payment of Company charges for calls or service originated at the customer's number; accepted at the customer's number (i.e., collect calls); or placed through the customer's authorization number.

2.16.7 The customer or subscriber shall provide access to its premises for any installation, repair, maintenance, inspection, testing, or removal of equipment associated with the Company's service.

2.16.8 The customer shall ensure that authorized users comply with the provisions of this tariff.

SECTION 2 - RULES AND REGULATIONS (Continued)**2.17 Responsibilities of Authorized Users**

- 2.17.1 The authorized user is responsible for compliance with all applicable regulations in this tariff.
- 2.17.2 The authorized user is responsible for establishing his/her identity as often as necessary during the course of a call.
- 2.17.3 The authorized user is responsible for identifying the station, party, or person with whom communication is desired and/or made at the called number.
- 2.17.4 The authorized user is responsible for providing the Company with a valid method of billing for each call. The Company reserves the right to validate the credit-worthiness of authorized users through called-number verification procedures. If the Company cannot validate a requested billing method, the Company may require the user to provide an acceptable alternate billing method or the Company may refuse to place the call.

2.18 Right to Backbill for Improper Use

Any person or entity which uses or appropriates the Company's services, whether directly or indirectly, in any unlawful manner or by providing misleading or false information to the Company shall be liable for an amount equal to the charges that would have applied to a customer's actual use of services.

SECTION 3 - DESCRIPTION OF SERVICE**3.1 General**

The Company offers automated operator-assisted services to entities serving inmates in correctional facilities.

3.2 Timing of Calls

- 3.2.1 Billing for calls placed over the Company's network is based in part on the duration of the call. Timing of each call begins as specified below and ends when either the calling party or the called party hangs up. Calls are billed in full minute increments unless otherwise specified.

Auto-Collect Calls - Timing begins when the called party accepts responsibility for payment.

All Other Calls - Timing begins when the called station answers.

- 3.2.2 Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one (1) minute.
- 3.2.3 No billing applies to incomplete or unanswered calls.
- 3.2.4 When a call begins in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.3 Calculation of Distance**

Usage charges for mileage-sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.

The area codes and exchanges of the origination and destination points determine the service wire centers of a call.

Industry standard vertical ("V") and horizontal ("H") coordinates determine the distance between the wire center of the customer and that of the destination point:

Step 1: Obtain the V and H coordinates for the wire centers serving the customer and the destination point.

Step 2: Obtain the difference between the V coordinate of each wire center. Obtain the difference between the H coordinates.

Step 3: Square the differences obtained in Step 2.

Step 4: Add the squares of the V difference and the H difference obtained in Step 3.

Step 5: Divide the sum of the squares obtained in Step 4 by 10. Round to the next higher whole number if a fraction remains from the division.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if a fraction remains.

Formula:

$$\text{Mileage} = \sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.4 Time-of-Day Rate Periods**

The day, evening or night/weekend rates apply based on the time of day and the day of the week as listed in the following chart:

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
8:00 a.m. to 5:00 p.m.*	Day Rate Period

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.6 Service Offerings****3.6.1 Left Blank****3.6.2 Left Blank****3.6.3 VAC Inmate Calling Service**

This specialized calling service is available when the correctional facility contracts for VAC Inmate Calling Service on behalf of the inmates. Special restrictions and limitations may apply to calls made by inmates, including restriction to collect-calls only. InterLATA, intraLATA and local calling are available, as specified by the correctional facility subscriber.

3.6.3.A Collect Call Assurance Program

The Company reserves the right to collect an advance payment equal to two (2) months of estimated collect calling service. If a calling history has not been established, the advance payment will be at least \$100.00, but will not exceed \$1,000.00. Payment must be made in U.S. dollars in the form of a cashier's check or money order.

The Company may limit charges to Customers who routinely accept collect calls from end users at correctional facilities at the advance payment level. During any billing cycle in which the customer is within 10% of the limit (the advance payment amount), the Company will offer the customer the choice of refusing service upon reaching the limit or increasing the advance payment. This allows the Company's collect customers to control the amount spent on collect calls from inmates while allowing the Company to offer service to customers whose credit-worthiness would otherwise preclude continued service.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.6 Service Offerings (Continued)****3.6.3 VAC Inmate Calling Service (Continued)****3.6.3.B COD Collect**

The Company offers COD Collect to inmates and to customers who accept inmate calls from certain correctional facilities served by the Company. COD Collect allows the inmate or collect call customer to establish a commissary account at the correctional facility for payment of call charges to the Company. The inmate or the collect call customer establishes the amount of the commissary account. The Company submits call charges to the administrator of the commissary account. The administrator is responsible for remitting payment to the Company according to the terms of the contract with the correctional facility. Where state law requires, the availability of a commissary account may be limited to collect-call customers only. Commissary accounts are only available at those institutions served by the Company that have made the appropriate contractual and operational arrangements for such service. Calls billed to a commissary account are not billed on the customer's local telephone bill.

Commissary accounts may, at the Company's election, be offered for prepaid direct-dialed calling services, at those institutions served by the Company which have made the appropriate contractual and operational arrangements for such services.
