

Revision to the application rules for Pump Testing validation.

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the New Mexico Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps with the apparatus pump test form and affidavit completed or the actual pump test records submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. The **Pump Test Data Log** may be used in lieu of the actual pump records but the affidavit must be signed, notarized and accompany the application.

Affidavit of Completed Annual Pump Tests

I, the undersigned Fire Chief of the _____ Fire Department, hereby confirm that I have read the foregoing pump test requirements and the pump tests have been completed in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. The information attested to, by the Fire Chief, is true and complete and assume the obligation for my qualifications to the New Mexico Fire Protection Grant Council.
